| Hot pepper Variety Pack \$10 | One of each poblano, jalapeno, cayenne, and hot wax |
| | |
| Vegetable Seedlings \$3 Each | |
| Big and medium tomatoes | |
| Giant | Early and... giant! This vining tomato grows upto 1 lb in 65-70 days! Yippy. |
| Mountain Princess | Early large/medium slicing tomato. Ripens even in cooler summers. Great "old fashion" tomato flavor. |
| Cherokee Purple | A black/purple type. Classic heirloom with a rich sweet flavor. One of the earliest heirlooms. Farmer Kat thinks this is the best tomato |
| Damsel | A pink/dusty red "hyloom" hybrid made from two heirloom parents. Amazing disease resistance, doesn't crack like many heirlooms and tastes amazing. |
| Green Zebra | A classic medium sized green and yellow stripped tomato. Slightly on the acidic side it makes beautiful rainbow salads when pared with other colors. |
| Pink Brandywine | One of the most sought after heirlooms later to ripen but worth the wait. If I could make all my sauce out of one tomato it would be these! |
| Porkchop | A yellow big beefy tomato. All the fun of the unsually spaed and delicious heirloom in yellow. Prized for its sweet yellow tomato flavor. |
| Estiva | Medium sized red tomato with excellent flavor ripens well overtime. |
| Stripped German | Rainbow Extra Large Heirlooms. Want to win a giant tomato competition. These are a good bet. |
| | |
| Cherry/Small Fruited Tomatoes | |
| Sungold | Some say it is the best tomato. Extra early with high acid and high sugar content. Bright orange hybrid. |
| Sakura | Red larger fruited cherry. This is what I grow in my hoopouses as the best all around hybrid cherry. |
| Indigo Cherry Drop | Dark Red and Purple with a great flavor and lots of micronutrients. Looks almost like a cross between a blueberry and a cherry tomato |
| Be my baby cherry | A cross between amazing northern adapted cherry tomatoes! You get a small diversity of super sweet fruit small to medium size |
| Cosmic Mix Pack | Sold together with a red cherry - a new release out of Cornell University with amazing shapes, color and flavors. |
| Yellow Mini | A yellow tomato which actually has beat out sungold in two years of blind taste tests at parties. Less acidic but just a sweet. A kids favorite here! |
| Apero | A cross between a grape and cherry tomato. This is an early type which is less susteptible to leaf diseases. Our #1 cherry type for the field. |
| Black Cherry | A large later ripening dusty purple cherry tomato which tastes like a minature cherokee purple! Well loved. |
| | |
| Roma/Sauce Tomatoes | |
| Bellstar | Rounder Very Early Bush Type. No need to trellis. A good dependable sauce tomato |
| San Marzano | Classic flavor for Italian Style harvest (with a green end) or ripe. High solids with a good flavor. The Sauce tomato! |
| Granadero | A hybrid early vining tomato. Our all around favorite for depenable harvest sooner than a san marzano |
| | |
| Hot Peppers | |
| Poblano | A Pobano for the North - Matures Early with a heavy set |
| Early Jalapeno | Its in the name - early, medium sized and perfect for salsa |
| Hungarian Hot Wax | The least hot "hot pepper". Great for fresh and canned salsa; pickling and general eating |
| Red Flame Cayenne | Beautiful and bright red. These produce early and keep going until frost |
| | |
| Sweet Peppers | note: all sweet peppers are also green peppers (before they turn red/orange etc) |
| Gilboa Orange | early and orange |
| Red Ace | Super early with pointed and blunt ends. If you have problems growing peppers choose these of king crimson. |

| | |
|---------------------------------|--|
| King Crimson | Early and blocky. More classic red pepper shape than Ace. |
| Italian Roasting Types | A variety of early and sweet italian or corni di toro types. |
| Greens | |
| Kale, Green Curly | |
| Kale, Lacinato (dinosaur) | |
| Swiss Chard | Rainbow type. Choose what you like! |
| Lettuce 4 pack | leaf, romaine, summer crisp, red |
| | |
| Herbs | |
| Basil, Purple | beautiful raw on tomato salads. |
| Basil, Genovese Sweet | Best for pesto |
| Thyme, German Hardy | |
| Oregano | |
| Sage | |
| Fennel | for bulbs or seed. |
| | |
| Onions (4 per container) | |
| Red, Cabernet | great at any stage from fresh eating with green tops to fall harvest. Bright red in color. |
| Cortland Yellow | classic yellow storage onion. |
| Leeks, Lexton | Great small or at full sized. A storage variety |
| Scallions | Great green onions |
| | |
| Cabbage | |
| Ruby Ball | all purpose red - fairly early. Ready sooner to avoid cabbage worms! |
| Passat (green medium to late) | Great for kraut and storage |
| Green Presto | Early Green all around good sweet cabbage |
| | |
| Cauliflower | |
| Bishop, Classic White | |
| | |
| Other Great Veggies | |
| Celery | |
| Celariac | |
| Eggplant - Orient Express | An Asian eggplant. Bright purple, long and thin. |
| Eggplant - Italian | Nadia is the actual variety. An early italian globe type. |
| Tomatillos | The green salsa plant that keeps giving! |
| Zucchini (green) | |
| Zucchini (yellow) | |
| Summer Squash (Yellow) | |
| Patty Pan Squash | |
| Winter Squash, Acorn | |

| | |
|----------------------------|---|
| Winter Squash, Butternut | |
| Winter Squash, Pie Pumpkin | |
| Winter Squash, buttercup | |
| Watermelons | Blacktail Mountain is an early northern bred type. Great on trellises or the ground. |
| Muskmelons | Divergent is an extra early smaller sized cantalope type. |
| Kohlrabi | Green summer kohlrabi |
| Broccoli | One of the great early organic broccoli types we grow. Sure to head. |
| cucumbers - slicers | Classic slicers with good disease resistance. |
| cucumbers - lemon | cute round flavorful. We ate these straight out of garden (we just grow them for our family) with salt, soy sauce and lemon juice all summer! |
| | |
